

TRINITY
SCHOOL

11 June 2010

Dear Parents,

Some parents and pupils may already be aware that the Headmaster, Mr Waters, has been unwell. Following tests, he has been diagnosed with a non-communicable viral meningitis and is undergoing treatment. The present outlook is favourable but it is unlikely he will be able to return to work before the end of June but, in the meantime, the Deputy Headmaster, Mr Harris, is dealing with any academic matters and other members of the Senior Leadership Team are ensuring that all aspects of the School's operation continue to run smoothly.

All business correspondence is continuing to be dealt with and meetings either re-assigned or re-arranged as appropriate. Cards or letters to Tim may be sent c/o Trinity School and we will ensure that they are passed on.

Yours faithfully,

Mr J C Brown
Chairman of Governors
